EXECUTIVE SUMMARY	1
1 INTRODUCTION	10
Major Changes in Research Compel Major Changes in Undergraduate Education, 10	
Evidence that Interdisciplinary Education Is Necessary, 12	
Research on Education Can Benefit the Teaching of Undergraduate Biology, 14	
<i>Case Study #1: Assessment of Undergraduate Research</i> , 19	
Statistics on Biology Students, 22	
Origin of Bio2010, 23	
2 A NEW BIOLOGY CURRICULUM	27
Concepts and Skills for the New Curriculum, 31	
Designing New Curricula Suitable for Various Types of Institutions, 47	
3 INSTRUCTIONAL MATERIALS AND APPROACHES FOR INTERDISCIPLINARY TEACHING	60
Modules for Course Enrichment, 61	
<i>Case Study #2: BioQUEST Curriculum Consortium</i> , 63	
<i>Case Study #3: Carbohydrates in Organic Chemistry</i> , 64	

Interdisciplinary Lecture and Seminar Courses, 66	
<i>Case Study #4: Quantitative Education for Biologists</i> , 68	
<i>Case Study #5: Seminar on the Mechanics of Organisms</i> , 71	
Teaching Materials, 72	
4 ENGAGING STUDENTS WITH INTERDISCIPLINARY AND PROJECT-BASED LABORATORIES	75
The Role of Laboratories, 75	
Proposed New Laboratories, 76	
<i>Case Study #6: Interdisciplinary Laboratory</i> , 78	
<i>Case Study #7: Neurobiology Laboratory</i> , 80	
<i>Case Study #8: Workshop Physics</i> , 82	
5 ENABLING UNDERGRADUATES TO EXPERIENCE THE EXCITEMENT OF BIOLOGY	87
Incorporating Independent Undergraduate Research Experiences, 87	
Seminars to Communicate the Excitement of Biology, 91	
<i>Case Study #9: Undergraduate Research Abroad</i> , 92	
Increasing the Diversity of Future Research Biologists, 94	
<i>Case Study #10: Integrated First-Year Science</i> , 95	
<i>Case Study #11: First-Year Seminar on Plagues</i> , 96	
<i>Case Study #12: Computational Biology</i> , 98	
6 IMPLEMENTATION	101
The Evolving Role of Departments, 102	
Faculty, 103	
Reform Initiatives and Administrative Support, 104	
Facilities, 105	
National Networks for Reform, 106	
Nurturing the Production of New Books and Other Teaching Materials, 107	
Financial Support for Improving Undergraduate Biology Education, 108	
Harmonizing the Undergraduate Science Education of Future Graduate Students and Medical Students, 111	
The Central Role of Faculty Development in Curriculum Transformation, 112
