

2 ed.  
Ej. 1

# CONTENTS

Using the Road Map Series for Successful Review .....	vii
Acknowledgments .....	ix
<b>1 General Principles of Pharmacology .....</b>	<b>1</b>
I. Definitions	1
II. Pharmacokinetic Principles	1
III. Pharmacodynamic Principles	6
IV. Drug Development and Regulation	11
Clinical Problems	11
Answers	13
<b>2 Autonomic Nervous System Pharmacology .....</b>	<b>14</b>
I. Autonomic Anatomy	14
II. Transmitter Biochemistry	14
III. Physiology of Autonomic Action	17
IV. Cholinomimetic Drugs	20
V. Cholinolytic Drugs and Pralidoxime	22
VI. Sympathomimetics	24
VII. Adrenoceptor Blockers	27
Clinical Problems	29
Answers	30
<b>3 Drug Therapy for Cardiovascular Diseases .....</b>	<b>31</b>
I. Hypertension	31
II. Angina Pectoris	36
III. Heart Failure	38
IV. Cardiac Arrhythmias	41
V. Diuretics and Other Drugs Acting on the Kidney	44
Clinical Problems	47
Answers	48
<b>4 Drugs for Allergy, Inflammation, and Blood and Immune Disorders .....</b>	<b>49</b>
I. Histamine and Antihistaminics	49
II. Serotonin and Related Drugs	49
III. Eicosanoids	52
IV. Nonsteroidal Anti-inflammatory Drugs and Drugs Used in Fever and Minor Pain and Headache	53
V. Drugs Used in Gout	54
VI. Antilipid Drugs	55
VII. Anticoagulants, Antiplatelet Drugs, and Fibrinolytics	56
VIII. Drugs Used in Anemias and Other Disorders of Blood Formation	57

IX. Drugs Used in Asthma	59
Clinical Problems	61
Answers	62

**5 Central Nervous System Drugs ..... 64**

I. Introduction to the Central Nervous System (CNS) Drugs	64
II. Sedative-Hypnotics	64
III. Antiepileptic Drugs (AEDs)	68
IV. General Anesthetics	71
V. Local Anesthetics	72
VI. Skeletal Muscle Relaxants	73
VII. Drugs for Parkinsonism and Other Movement Disorders	75
VIII. Drugs for Psychoses and Bipolar Disorder	77
IX. Antidepressants	79
X. Opioid Analgesics	81
XI. Drugs of Abuse	84
Clinical Problems	85
Answers	87

**6 Hormones and Other Endocrine Agents ..... 89**

I. Hypothalamic and Pituitary Drugs	89
II. Thyroid Drugs	90
III. Adrenal Steroids and Antagonists	91
IV. Gonadal Drugs, Antagonists, and Inhibitors	93
V. Pancreatic Drugs	94
VI. Drugs That Affect Bone Mineral Metabolism	98
Clinical Problems	99
Answers	101

**7 Antimicrobial Agents: Antibiotics ..... 102**

I. Inhibitors of Cell Wall Synthesis: Penicillins	102
II. Inhibitors of Cell Wall Synthesis: Cephalosporins, Carbapenems, and Vancomycin	104
III. Inhibitors of Protein Synthesis: Macrolides, Clindamycin, Tetracyclines, and Chloramphenicol	106
IV. Inhibitors of Protein Synthesis: Aminoglycosides, Streptogramins, and Linezolid	108
V. Inhibitors of Folic Acid Synthesis: Sulfonamides and Trimethoprim	110
VI. Inhibitors of Nucleic Acid Synthesis: Fluoroquinolones	112
VII. Antimycobacterial Drugs	113
VIII. Miscellaneous Antimicrobials	114
Clinical Problems	115
Answers	117

**8 Antifungal, Antiviral, and Antiparasitic Drugs ..... 119**

I. Antifungal Drugs	119
II. Antiviral Drugs	121
III. Antiparasitic Drugs	125
Clinical Problems	127
Answers	131

**9 Anticancer Drugs and Immunopharmacology ..... 132**

I. Cancer Chemotherapy	132
------------------------	-----

II. Immunopharmacology	136
Clinical Problems	139
Answers	142
<b>10 Toxicology</b> .....	<b>144</b>
I. Introduction	144
II. Environmental Chemicals	144
III. Agricultural Chemicals	145
IV. Heavy Metals	146
V. Management of Poisoning	146
Clinical Problems	149
Answers	151
<b>11 Special Topics</b> .....	<b>153</b>
I. Gastrointestinal Pharmacology	153
II. Vaccines and Other Immunization Materials	155
III. Botanicals and Nutritional Supplements	156
IV. Drug Interactions	159
Clinical Problems	160
Answers	163
<b>Appendix</b> .....	<b>165</b>
<b>Index</b> .....	<b>173</b>
