Pg. 2

CONTENTS

Using the USMLE Road Map Series for Successful Review	vii
Chapter 1 – Cell Biology	1
I. Plasma Membrane	1
II. Nucleus	1
III. DNA and the Chromosome	2
IV. Cell Cycle	5
V. Cell Division and Cytokinesis	6
VI. Endoplasmic Reticulum	6
VII. Ribosomes	7
VIII. Golgi Apparatus	7
IX. Mitochondria	7
X. Lysosomes	8
XI. Peroxisomes	8
Clinical Problems	9
Answers	13
Chapter 2 – Epithelium	14
I. Four Primary Tissues	14
II. Epithelial Tissue	14
III. Classification of Epithelial Tissue	14
IV. Function and Distribution of Epithelia	15
V. Epithelial Glands	17
VI. Cell Surface Specializations	18
VII. Cell—Cell Adhesion	19
Clinical Problems	22
Answers	24
Chapter 3 – Connective Tissue	25
I. General Features	25
II. Extracellular Matrix	25
III. Cells of Connective Tissue	26
IV. Classification of Connective Tissue	29
Clinical Problems	30
Answers	32
Chapter 4 – Cartilage	34
I. General Features	34
II. Cartilage Composition	34
III. Types of Cartilage	35
Clinical Problems	37
Answers	39
Chapter 5 – Bone	40
I. General Features	40
II. Composition of Bone	40
III. Types of Bone	43
IV. Endochondral Ossification	43
V. Intramembranous Ossification	46
VI. Bone Remodeling	46

Clinical Problems 46
Answers 49

Chapter 6 – Muscle Tissue	50
I. General Features	50
II. Skeletal Muscle	50
III. Cardiac Muscle	53
IV. Smooth Muscle	53
V. Myoneural Junction	53
Clinical Problems	55
Answers	57
Chapter 7 – Peripheral Blood	59
I. Components of Blood	59
II. Hematocrit	59
III. Erythrocytes	59
IV. Leukocytes	60
V. Platelets	62
Clinical Problems	63
Answers	65
Chapter 8 – Hematopoiesis	67
I. Hematopoiesis and Bone Marrow	67
II. Blood Cell Differentiation	67
III. Erythropoiesis	67
IV. Granulopoiesis	70
V. Lymphopoiesis	72
VI. Monopoiesis	72
Clinical Problems	72
Answers	75
Chapter 9 – Central Nervous System	76
I. General Features	76
II. Neurons	76
III. Glial Cells	79
IV. Nerve Fibers	81
V. Node of Ranvier	82
VI. Gray and White Matter	82
VII. Meninges	83
VIII. Choroid Plexus and Cerebrospinal Fluid	86
Clinical Problems	86
Answers	89
Chapter 10 – Peripheral Nervous System	91
I. Peripheral Nerves	91
II. Ganglia	93
III. Autonomic Nervous System	93
IV. Degeneration and Regeneration of Neurons	93
V. Nerve Endings and Organs of Special Sense	94
Clinical Problems	96
Answers	98
Chapter 11 – Cardiovascular System	100
I. Components of Cardiovascular System	100
II. Capillaries	100
III. Layers of Vessels	100
IV. Comparison of Companion Arteries and Veins	103
V. Classification of Arteries	103

VI. Classification of Veins	103
VII. Heart	104
Clinical Problems	105
Answers	107
Chapter 12 – Immune System	109
I. General Features	109
II. Diffuse Lymphoid Tissue	109
III. Lymph Follicles	109
IV. Lymph Node	110
V. Thymus	112
VI. Spleen	114
Clinical Problems	117
Answers	119
Chapter 13 – Integument	121
I. Functions	121
II. Epidermis	121
III. Cells of Integument	123
IV. Melanin Synthesis	124
V. Dermis	124
VI. Hypodermis	125
VII. Hair	125
VIII. Glands of the Skin	127
Clinical Problems	128
Answers	130
Chapter 14 – Gastrointestinal System	132
I. General Features	132
II. Salivary Glands	132
III. Tongue	133
IV. Esophagus	134
V. Stomach	137
VI. Small Intestine	139
VII. Large Intestine	142
Clinical Problems	143
Answers	145
Chapter 15 – Liver, Gallbladder, and Exocrine Pancreas	147
I. Liver	147
II. Gallbladder	150
III. Exocrine Pancreas	152
Clinical Problems	153
Answers	155
Chapter 16 – Respiratory System	156
I. Components of Respiratory System	156
II. Respiratory Epithelium	156
III. Nasal Cavity	158
IV. Paranasal Sinuses	159
V. Nasopharynx	159
VI. Larynx	159
VII. Trachea	159
VIII. Bronchial Tree	160
Clinical Problems	164
Answers	166

Chapter 17 – Urinary System	167
I. Kidney Functions	167
II. Kidney Structure	167
III. Nephron and Uriniferous Tubules	167
IV. Juxtaglomerular Apparatus	170
V. Regulation of Blood Pressure	170
VI. Blood Supply	171
VII. Ureter	172
VIII. Urinary Bladder	172
Clinical Problems	172
Answers	175
Chapter 18 – Endocrine Organs	176
I. Pituitary Gland	176
II. Thyroid Gland	178
III. Parathyroid Gland	180
IV. Pineal Gland	181
V. Adrenal Gland	181
VI. Endocrine Pancreas	183
Clinical Problems	184
Answers	186
Chapter 19 – Female Reproductive System	188
I. Ovary	188
II. Uterine Tube	190
III. Uterus	193
IV. Cervix	194
V. Vagina	195
VI. Mammary Gland	195
Clinical Problems	196
Answers	198
Chapter 20 – Male Reproductive System	199
I. Testis	199
II. Genital Ducts	203
III. Auxiliary Genital Glands	205
IV. Penis	206
Clinical Problems	208
Answers	210
Chapter 21 – Eye and Ear	211
I. Eye	211
II. Ear	215
Clinical Problems	218
Answers	221
Index	223
