## **PART 1 An Overview of the Approach to and Organization of Critical Care . . . . . 1**

<b>1 An Approach to Critical Care . . . . .</b>	<b>2</b>
Jesse B. Hall, Gregory A. Schmidt, and Lawrence D. H. Wood	
<b>2 Measuring Quality . . . . .</b>	<b>7</b>
Andre Carlos Kajdacsy-Balla Amaral and Gordon D. Rubenfeld	
<b>3 Intensive Care Unit Staffing . . . . .</b>	<b>15</b>
Allan Garland, Hayley Beth Gershengorn, and Constantine A. Manthous	
<b>4 Infection Prevention and Surveillance in the Intensive Care Unit . . . . .</b>	<b>23</b>
Hitoshi Honda, David K. Warren, and Marin H. Kollef	
<b>5 Preventing Morbidity in the ICU . . . . .</b>	<b>32</b>
Promise Ariyo, Theresa L. Hartsell, and Peter J. Pronovost	
<b>6 Assessing Cost-Effectiveness in the Intensive Care Unit . . . . .</b>	<b>37</b>
David J. Wallace and Derek C. Angus	
<b>7 Interpreting and Applying Evidence in Critical Care Medicine . . . . .</b>	<b>44</b>
Elizabeth Lee Daugherty Biddison and Douglas B. White	
<b>8 Principles of Medical Informatics and Clinical Informatics in the ICU . . . . .</b>	<b>49</b>
Vitaly Herasevich, Ognjen Gajic, and Brian W. Pickering	
<b>9 Preparedness for Catastrophe . . . . .</b>	<b>56</b>
James Geiling, Michael Rea, and Robert Gougelet	
<b>10 Telemedicine and Regionalization . . . . .</b>	<b>62</b>
Jeremy M. Kahn	
<b>11 Transportation of the Critically Ill Patient . . . . .</b>	<b>69</b>
Charlotte Small, Andrew McDonald Johnston, and Julian Bion	
<b>12 Rapid Response Teams . . . . .</b>	<b>77</b>
Daryl Jones and Rinaldo Bellomo	
<b>13 Assessment of Severity of Illness . . . . .</b>	<b>83</b>
James A. Russell	
<b>14 Chronic Critical Illness . . . . .</b>	<b>97</b>
Shannon S. Carson	
<b>15 Long-Term Outcomes After Critical Illness . . . . .</b>	<b>103</b>
Margaret S. Herridge, Jill I. Cameron, and Ramona O. Hopkins	
<b>16 Care of the Caregiver in the ICU and After Critical Illness . . . . .</b>	<b>114</b>
Yoanna Skrobik	
<b>17 Caring for the Family . . . . .</b>	<b>116</b>
Sabina Hunziker and Michael D. Howell	

<b>18 Providing Palliative Care and Withholding or Withdrawing Life-Sustaining Therapy . . . . .</b>	<b>120</b>
Dee W. Ford and J. Randall Curtis	
<b>19 Legal Issues in Critical Care . . . . .</b>	<b>125</b>
Marshall B. Kapp	

## **PART 2 General Management of the Patient . . . . . 131**

<b>20 Nutrition Therapy in the Critically Ill . . . . .</b>	<b>132</b>
Daren K. Heyland, Rupinder Dhaliwal, and Stephen A. McClave	
<b>21 Glycemic Control . . . . .</b>	<b>141</b>
Jean-Charles Preiser and Carole Ichai	
<b>22 Pain Control, Sedation, and Use of Muscle Relaxants . . . . .</b>	<b>145</b>
Sarah Sokol, Bhakti K. Patel, Ishaq Lat, and John P. Kress	
<b>23 Sleep . . . . .</b>	<b>155</b>
Brian K. Gehlbach and Sairam Parthasarathy	
<b>24 Physical Therapy . . . . .</b>	<b>162</b>
William Schweickert, Amy J. Pawlik, and John P. Kress	
<b>25 Cardiopulmonary Resuscitation . . . . .</b>	<b>166</b>
Benjamin S. Abella and Marion Leary	
<b>26 Therapeutic Hypothermia . . . . .</b>	<b>174</b>
Benjamin S. Abella and Marion Leary	
<b>27 Intravascular Devices in the ICU . . . . .</b>	<b>179</b>
John F. McConville and Bhakti K. Patel	
<b>28 Interpretation of Hemodynamic Waveforms . . . . .</b>	<b>186</b>
James W. Leatherman and John Marini	
<b>29 ICU Ultrasonography . . . . .</b>	<b>202</b>
Paul Mayo and Seth Koenig	
<b>30 Interventional Radiology . . . . .</b>	<b>209</b>
Brian Funaki, Jonathan M. Lorenz, Rakesh Navuluri, Thuong G. Van Ha, and Steven M. Zangan	

## **PART 3 Cardiovascular Disorders . . . . . 227**

<b>31 The Pathophysiology of the Circulation in Critical Illness . . . . .</b>	<b>228</b>
Edward T. Naureckas and Lawrence D. H. Wood	
<b>32 Assessing the Circulation: Oximetry, Indicator Dilution, and Pulse Contour Analysis . . . . .</b>	<b>242</b>
Michael R. Pinsky	
<b>33 Shock . . . . .</b>	<b>249</b>
Keith R. Walley	
<b>34 Judging the Adequacy of Fluid Resuscitation . . . . .</b>	<b>262</b>
Gregory A. Schmidt	
<b>35 Ventricular Dysfunction in Critical Illness . . . . .</b>	<b>266</b>
Keith R. Walley
