Contents

Chapter 1  History of Equine Anesthesia, 1
William W. Muir and John A.E. Hubbell
Defining Anesthesia in Equine Practice: An Emerging Science, 1
The Evolution of Equine Anesthesia, 4
Recent Developments (1950 to Today), 6
The Future, 9

Chapter 2  The Respiratory System, 11
N. Edward Robinson
Ventilation of the Lung, 11
Minute, Dead-Space, and Alveolar Ventilation, 11
Muscles of Respiration, 11
Mechanics of Ventilation, 12
Pulmonary Elasticity, 12
Interactions on the Lung and Chest Wall, 13
Frictional Resistance to Breathing, 13
Dynamic Airway Compression, 15
Distribution of Ventilation, 15
Collateral Ventilation and Interdependence, 18
Postural and Anesthetic Effects on Lung Volumes and Ventilation Distribution, 18
Blood Flow, 19
Pulmonary Circulation, 19
Vascular Pressures and Resistance, 19
Passive Changes in Vascular Resistance, 20
Vasomotor Regulation, 20
Distribution of Pulmonary Blood Flow, 20
Bronchial Circulation, 20
Pulmonary Blood Flow and Its Distribution Under Anesthesia, 21
Gas Exchange, 23
Alveolar Gas Composition, 23
Diffusion, 24
Matching of the Ventilation and Blood Flow, 25
Ventilation Perfusion Matching Under Anesthesia, 27
Blood Gas Tensions, 27
Gas Transport, 28
Hemoglobin, 28
Carbon Dioxide Transport, 29
Control of Breathing, 30
Central Control of Respiration, 30
Pulmonary and Airway Receptors, 31
Chemoreceptors, 31
Effects of Drugs on Ventilation and Control of Breathing, 32

Chapter 3  The Cardiovascular System, 37
Colin C. Schwarzwald, John D. Bonagura, and William W. Muir
Normal Cardiovascular Structure and Function, 37
Cardiac Anatomy, 37
Cardiac Electrophysiology, 40
Autonomic Modulation of Cardiac Activation and Heart Rate, 45
Mechanical Function of the Heart, 47
The Circulation—Central Hemodynamics, Peripheral Blood Flow, and Tissue Perfusion, 56
Recognition and Management of Heart Disease, 63
Overview of Heart Disease in the Horse, 63
Evaluation of Cardiovascular Function, 63
Structural Heart Disease, 72
Cardiac Rhythm Disturbances, 77
General Effects of Anesthetic Drugs on Cardiovascular Function, 93

Chapter 4  Stress Associated with Anesthesia and Surgery, 101
Ann E. Wagner
Markers of the Stress Response, 101
Corticosteroids, 101
Catecholamines, 102
Insulin and Glucose, 102
Nonesterified Fatty Acids, 103
Hematology and Clinical Chemistry, 104
Effect of Anesthesia Without Surgery, 105
Total Intravenous Anesthesia Without Surgery, 105
Inhalation Anesthesia Without Surgery, 106
Effect of Anesthesia with Surgery, 106
Effect of Hypothermia on the Stress Response to Anesthesia, 107
Conclusion and Clinical Relevance, 107

Chapter 5  Physical Restraint, 109
James T. Robertson and William W. Muir
Halter and Lead, 109
Use of the Chain Lead, 109
Twitches, 110
Picking Up a Foot, 112
Stocks, 113
Leading Unwilling Horses, 114
Foal Restraint, 114
Restraint for Induction to Anesthesia, 116
Restraint During Anesthesia, 116
Restraint During Anesthetic Recovery, 117

Chapter 6  Preoperative Evaluation: General Considerations, 121
James T. Robertson and Claire Scicliuna
History, 121
Physical Examination, 122
Laboratory Tests, 124
Anesthetic Risk and Physical Status, 126
Preoperative Considerations Associated with Specific Conditions or Diseases, 126
Colic, 126
Uroperitoneum, 127
Orthopedic Injuries, 127
Injuries or Diseases Causing Blood Loss, 127
Upper Respiratory Tract Obstruction, 128
Pregnancy, 128
Foals, 128
Preparation of the Horse for Anesthesia and Surgery, 128

Chapter 7  
**Venous and Arterial Catheterization and Fluid Therapy, 131**  
Joanne Hardy
Purpose of Vascular Catheterization, 131
Methods of Intravenous Catheterization, 131
Methods of Arterial Catheterization, 134
Types of Catheters, 136
  - Butterfly Catheters, 137
  - Over-the-Needle Catheters, 137
  - Through-the-Needle Catheters, 137
  - Over-the-Wire Catheters, 137
Catheter Materials and Sizes, 137
  - Extension Sets, Coil Sets, Injection Caps, and Administration Sets, 138
  - Fluid Pumps, 139
Complications Associated with Venous or Arterial Catheterization, 139
Fluid Therapy, 139
  - Fluid Administration, 142
Type of Fluids, 143
  - Fluids Used for Severe Hypotension, Hypovolemia, and Resuscitation, 144
  - Colloids, 145
Bicarbonate Replacement, 145
  - Blood Component Therapy, 146
  - Blood Replacement, 146
  - Plasma Replacement, 147

Chapter 8  
**Monitoring Anesthesia, 149**  
John A.E. Hubbell and William W. Muir
The Anesthesia Record, 150
Monitoring the Depth of Anesthesia, 150
  - Physical Signs, 150
  - Eye Signs, 150
  - Electroencephalography, 153
Monitoring the Concentration of Anesthetic Drugs, 153
Monitoring Respiratory and Cardiovascular Variables, 153
  - Respiratory Monitoring, 155
  - Cardiovascular Monitoring, 159
  - Other Monitoring Techniques, 166

Chapter 9  
**Principles of Drug Disposition and Drug Interaction in Horses, 171**  
Richard A. Sans and William W. Muir
Pharmacokinetics, 171
  - Receptor Theory, 171
Compartmental Models of Drug Disposition, 172
  - One-Compartment Models, 172
  - Multicompartmental Models, 172
Pharmacokinetic Terminology, 173
  - Clearance, 173

Hepatic Clearance, 174
Renal Clearance, 176
Volume of Distribution, 176
Half-Life, 177
Bioavailability, 177
Plasma Protein Binding, 178
Pharmacodynamic Concepts, 179
  - Relationship Between Drug Concentration and Drug Effect, 179
Effects of Variables on Drug Pharmacokinetics, 181
  - Age, 181
  - Body Weight, 181
  - Gender, 181
  - Breed, 181
Effects of Disease, 181
  - Blood Flow Rate, 181
  - Intrinsic Clearance, 181
  - Protein Binding, 181
Drug Interactions, 182
  - Effects on Metabolism, 182
  - Effects on Renal Clearance, 182
Drug Additivity and Synergism, 183
Routes of Administration, 182
  - Intravenous, 182
  - Intramuscular and Subcutaneous, 183
  - Oral, 183
  - Topical, 183

Chapter 10  
**Anxiolytics, Nonopioid Sedative-Analgesics, and Opioid Analgesics, 185**  
William W. Muir
Phenothiazine Tranquilizers, 186
  - Mechanism of Action, 187
  - Applied Pharmacology, 187
  - Biodisposition, 188
Clinical Use and Antagonism, 189
  - Complications, Side Effects, and Toxicity, 189
Benzodiazepines, 190
  - Benzodiazepines, 190
  - Mechanism of Action, 191
  - Applied Pharmacology, 191
  - Biodisposition, 191
Clinical Use and Antagonism, 191
  - Complications, Side Effects, and Toxicity, 191
Noropiod Sedative-Analgesics, 192
  - Mechanism of Action, 192
  - Applied Pharmacology, 192
  - Biodisposition, 196
Clinical Use and Antagonism, 196
  - Complications, Side Effects, and Clinical Toxicity, 198
Opioid Analgesics, 199
  - Mechanism of Action, 199
  - Applied Pharmacology, 200
  - Biodisposition, 202
Clinical Use and Antagonism, 202
  - Complications, Side Effects, and Clinical Toxicity, 203
Sedative-Hypnotic, Opioid, and Nonopioid Drug Combinations, 203
Chapter 11  Local Anesthetic Drugs and Techniques, 210
Roman T. Skarda, William W. Muir, and John A.E. Hubbell
Physiology of Nerve Transmission, 210
Nerve Fiber Types, 210
Pharmacology of Local Anesthetics, 211
Mechanism of Action, 211
General Properties, 211
Local Anesthetic Drugs, 212
Local Anesthetic Drug Pharmacology, 214
Potentiation and Inhibition of Local Anesthesia, 218
Vasoconstrictors, 218
Hyaluronidase, 220
pH Adjustment, 220
Inflammation and Local pH Changes, 220
Indications and Choice of Local Anesthetic, 220
Equipment for Performing Local Anesthesia, 220
Nerve Blocks, 221
Regional Anesthesia of the Head, 221
Laparotomy, 230
Caudal Anesthesia, 233
Castration, 237
Therapeutic Local Anesthesia, 237
Complications, 239
Systemic Toxicity, 239
Local Tissue Toxicity and Nerve Damage, 239
Tachycardias, 239

Chapter 12  Intravenous Anesthetic Drugs, 243
William W. Muir
Intravenous Anesthetics, 243
The Barbiturates, 244
Dissociative Anesthetics, 249
Centrally Acting Muscle Relaxants, 252
Other Intravenous Drugs, 254
Chloral Hydrate, 254
Etorphine/Acetromazine, 255
Propofol, 256
Metomidate, Etomidate, Alphaxalone/Alphadoline, 256

Chapter 13  Intravenous Anesthetic and Analgesic Adjuncts to Inhalation Anesthesia, 260
Kazuto Yamashita and William W. Muir
Pharmacokinetics and Pharmacodynamics of Intravenous Agents, 260
Total Intravenous Anesthesia Techniques in Horses, 261
Total Intravenous Anesthesia for Short-Duration (<30 Minutes) Procedures, 261
Total Intravenous Anesthesia for Intermediate-Duration (30 to 90 Minutes) Procedures, 267
Total Intravenous Anesthesia for Prolonged Procedures (120 Minutes and More), 270
Intravenous Analgesic Adjuncts in Combination with Inhalation Anesthesia in Horses, 272
Opioid Infusion, 273
Ketamine Infusion, 273
Medetomidine Infusion, 273
Lidocaine Infusion, 273
Simultaneous Infusion of Guanafesin-Ketamine-Xylazine, Guanafesin-Ketamine-Medetomidine, or Midazolam-Ketamine-Medetomidine During Inhalant Anesthesia, 274

Chapter 14  Tracheal and Nasal Intubation, 277
Richard M. Bednarski
Anatomy, 277
Purposes of Intubation, 278
Complications of Tracheal Intubation, 280
Preoperative Evaluation, 281
Equipment, 281
Tracheal Tubes, 281
Mouth Specula, 282
Lubricants, 282
Cleansing, Sterilization, and Repair of Tracheal Tubes, 282
Intubation Technique, 283
Orotracheal Intubation, 283
Nasotracheal Intubation, 284
Tracheostomy, 285
Considerations for Laser Procedures of the Upper Airway and Oral Cavity, 285
Exubation, 286
Complications After Exubation, 286

Chapter 15  Inhalation Anesthetics and Gases, 288
Eugene P. Steffey
Fundamentals of Inhalation Anesthesia, 288
General Characteristics of Inhalation Anesthetics, 289
Chemical and Physical Properties, 289
Minimum Alveolar Concentration, 290
Monitoring the Response to Anesthetics, 291
Pharmacokinetics of Inhaled Anesthetics, 292
Anesthetic Uptake: Factors That Determine the Alveolar Partial Pressure of Anesthetic, 293
Anesthetic Elimination, 295
Pharmacodynamics: The Actions and Toxicity of Inhalation Anesthetics, 296
The Volatile Anesthetics, 297
The Gaseous Anesthetic—Nitrous Oxide, 308
Trace Concentrations of Inhalation Anesthetics: Occupational Exposure, 308

Chapter 16  Anesthetic Equipment, 315
Richard M. Bednarski
Systems for Delivery of Medical Gases, 315
Compressed Gas Cylinders and Connections, 315
Oxygen-Generating Systems, 317
Pressure Regulators, 318
Components of the Anesthetic Machine and Breathing Circuit, 318
Vaporizers, 319
Common Gas Outlet, 320
Anesthetic Breathing Circuits, 320
Fresh Gas Flow Rates, 324
Equine Anesthetic Machines, 325
Machine and Breathing Circuit Check, 326
Complications Related to the Anesthetic Machine and Breathing Circuits, 328
Waste Gas Disposal (Scavenger) Systems, 328
Cleaning and Disinfection of Anesthetic Machines and Breathing Circuits, 329
Surgical Tables and Protective Padding, 329
Slings, 330
Pools, 330

Chapter 17  Oxygen Supplementation and Ventilatory Support, 332
Carolyn L. Kerr and Wayne N. McDonell
Historical Considerations, 332
Special Considerations Regarding Equine Anatomy and Physiology, 332
Conducting Airways, 332
Pulmonary Mechanics, 333
Gas Exchange Units, 333
Indications for Oxygen Supplementation, 334
Indications for Ventilatory Support, 335
Equipment, 337
Methods of Increasing the Fraction of Inspired Oxygen (FiO₂), 337
Mechanical Ventilators, 338
Ventilators for Equine Use, 342
Ventilatory Assist Devices, 344
Basics of Ventilator Setup, 344
Respiratory Effects of Oxygen Supplementation and Mechanical Ventilation, 345
Cardiovascular Effects of Oxygen Supplementation and Mechanical Ventilation, 346
Effect of Changes in Intrathoracic Pressure on Venous Return and Right Heart Function, 346
Effect of Changes in Intrathoracic Pressure on the Left Ventricle, 347
Effects of Changing Lung Volume, 347
Heart Rate Changes with Ventilation, 347
Effects of Mechanical Ventilation on Cerebral Perfusion, 347
Monitoring Ventilatory Support, 348
Complications of Ventilatory Support, 348
Special Situations, 350
Abdominal Exploratory in the Adult Horse, 350
Foals, 351

Chapter 18  Anesthesia and Analgesia for Donkeys and Mules, 353
Nora S. Matthews
Preoperative Evaluation, 353
Behavioral Differences, 353
Physiological Differences, 353
Anatomical Differences, 353
Normal Values, 354
Preoperative Analgesia in Donkeys and Mules, 354
Premedication and Sedation for Standing Procedures, 354
Induction and Maintenance of General Anesthesia with Injectable Drugs, 355
Guanfacin-Ketamine-Xylazine Administration to Donkeys, 355
Maintenance with Inhaled Anesthetics, 356
Monitoring Anesthesia, 356
Recovery from Anesthesia, 356
Analgesia, 356

Chapter 19  Peripheral Muscle Relaxants, 358
John A.E. Hubble and William W. Muir
Physiology and Pharmacology of the Neuromuscular Junction, 358
Normal Neuromuscular Transmission, 358
Pathological Alterations to Neuromuscular Transmission, 360
Clinical Pharmacology of Neuromuscular Blocking Drugs, 360
Actions of Neuromuscular Blocking Drugs, 360
Other Effects of Neuromuscular Blocking Drugs, 362
Protein Binding, Metabolism, and Excretion of Neuromuscular Blocking Drugs, 363
Physiological Alterations Affecting Neuromuscular Blockade, 364
Exercise, Temperature, and Acid-Base Balance, 364
Electrolyte Disturbances, 364
Reversal of Nondepolarizing Blockade, 364
Mechanism of Action of Drugs That Facilitate Neuromuscular Junction Function, 364
Autonomic Effects of the Facilitatory Drugs, 364
Monitoring Neuromuscular Blockade, 364
Quantitative Techniques, 365
Clinical Monitoring: Estimation of Mechanical Responses, 365
Administration of Neuromuscular Blocking Drugs to Anesthetized Horses, 367
Administration of Neuromuscular Facilitatory Drugs to Anesthetized Horses, 367

Chapter 20  Perioperative Pain Management, 369
Phillip Lecher and William W. Muir
Physiology of Pain, 369
Consequences of Pain, 371
Pain Assessment, 371
Pain Assessment Tools, 372
Treating Perioperative and Operative Pain, 374
Analgesic Therapies, 374
Nonsteroidal Antiinflammatory Drugs, 374
Opioids, 377
α₂-Adrenoceptor Agonists, 377
Local Anesthetics, 377
Other Drugs, 377
Future Advancements, 378

Chapter 21  Considerations for Induction, Maintenance, and Recovery, 381
John A.E. Hubble and William W. Muir
Producing (Inducing) Anesthesia, 381
Maintaining Anesthesia, 383
Recovery from Anesthesia, 384
Factors Affecting the Duration of Recovery, 384
Recovery Stall Design, 389
Assisting Recovery, 391
Equipment, 391
Recovery from Anesthesia Outdoors, 392
Recovery from Anesthesia in unusually Designed Facilities, 393
Inflated Air Pillow Recoveries, 393
Tilt-Table Recoveries, 393
Sling Recoveries, 394
Swimming Pool and Raft Systems, 394
Rectangular (Hydropool System), 395

Chapter 22 Anesthetic-Associated Complications, 397
William W. Muir and John A.E. Hubbell
The Induction Phase, 397
Drug Administration, 397
Sedation, 398
Producing Anesthesia, 399
Breathing, 399
Blood Pressure and Tissue Perfusion, 400
The Maintenance Phase, 401
Breathing, 401
Blood Pressure and Tissue Perfusion, 403
The Recovery Phase, 406
Breathing, 407
Other Complications, 411
Equipment, 411
Hospitalization and Surgery, 413
Human Error, 415

Chapter 23 Cardiopulmonary Resuscitation, 418
William W. Muir and John A.E. Hubbell
Causes of Cardiopulmonary Emergencies, 418
Diagnosis of Cardiopulmonary Emergencies, 418
Chest Compression in Horses, 423
Cardiac Compression, 424
Performing Cardiopulmonary Resuscitation in the Horse, 424
Airway and Breathing, 424
Circulation, 426
Drugs, 427
Assessment of Cardiopulmonary Resuscitation and Prognosis, 429

Chapter 24 Anesthetic Protocols and Techniques for Specific Procedures, 430
John A.E. Hubbell and William W. Muir
Castration, 430
Arthroscopy, 431
Arthrodesis, 432
Nasal Septum Removal, 433
Abdominal Exploratory for Colic Pain, 434
Ophthalmological Surgery, 435
Anesthesia of a Draft Horse, 436
Anesthesia of a Foal, 437
Anesthesia of a Foal with a Ruptured Bladder, 438

Chapter 25 Anesthetic Risk and Euthanasia, 439
Lori A Bidwell, John A.E. Hubbell, and William W. Muir
Anesthetic Risk, 439
Euthanasia, 439
American Veterinary Medical Association Guidelines for Euthanasia, 441
Modes of Action of Drugs Used for Euthanasia, 442
Chemical Methods of Euthanasia, 442
Inhalants, 442
Injectable drugs, 442
Barbituric Acid Derivatives, 443
Chloral Hydrate, 444
Magnesium Sulfate, 444
Potassium Chloride, 444
Chloral Hydrate, Magnesium Sulfate, and Sodium Pentobarbital, 444
Peripheral Muscle Relaxants, 444
Strychnine, 444
Nicotine Sulfate, 445
Physical Methods of Euthanasia, 445
Captive Bolt, 445
Gunshot, 445
Exsanguination, 445
Electrocution, 445
Methods of Confirming and Ensuring Death, 446
Use of Euthanized Horses for Food, 446

Appendix A Respiratory Abbreviations, 447
Appendix B Drug Schedules, 449
Appendix C Equine Anesthesia Record and Recovery Sheet, 451
Appendix D Pain Management Plan, 453
Appendix E Anesthesia Equipment Companies, 455
Index, 459
