Preface *iii*

- 1. PREFERTILIZATION EVENTS 1**
  - I. Sexual Reproduction 1
  - II. Chromosomes 1
  - III. Meiosis 2
  - IV. Oogenesis: Female Gametogenesis 2
  - V. Spermatogenesis: Male Gametogenesis 4
  - VI. Clinical Considerations 4

Study Questions for Chapter 1 8

Answers and Explanations 10
- 2. WEEK 1 OF HUMAN DEVELOPMENT (DAYS 1–7) 12**
  - I. Fertilization 12
  - II. Cleavage and Blastocyst Formation 12
  - III. Implantation 13
  - IV. Clinical Considerations 14

Study Questions for Chapter 2 15

Answers and Explanations 17
- 3. WEEK 2 OF HUMAN DEVELOPMENT (DAYS 8–14) 18**
  - I. Further Development of the Embryoblast 18
  - II. Further Development of the Trophoblast 18
  - III. Development of Extraembryonic Mesoderm 18
  - IV. Clinical Considerations 20

Study Questions for Chapter 3 22

Answers and Explanations 24
- 4. EMBRYONIC PERIOD (WEEKS 3–8) 26**
  - I. General Considerations 26
  - II. Further Development of the Embryoblast 26
  - III. Vasculogenesis (De Novo Blood Vessel Formation) 29

IV. Hematopoiesis (Blood Cell Formation) 31

V. Clinical Considerations 31

Study Questions for Chapter 4 33

Answers and Explanations 35

## 5. CARDIOVASCULAR SYSTEM

37

I. Formation of Heart Tube 37

II. Primitive Heart Tube Dilations 37

III. The Aorticopulmonary (AP) Septum 39

IV. The Atrial Septum 41

V. The Atrioventricular (AV) Septum 43

VI. The Interventricular (IV) Septum 45

VII. The Conduction System of the Heart 46

VIII. Coronary Arteries 47

IX. Development of the Arterial System 47

X. Development of the Venous System 49

Study Questions for Chapter 5 50

Answers and Explanations 53

## 6. PLACENTA AND AMNIOTIC FLUID

55

I. Formation of the Placenta 55

II. Placental Components: Decidua Basalis and Villous Chorion 55

III. Placental Membrane 58

IV. The Placenta as an Endocrine Organ 59

V. The Umbilical Cord 60

VI. Circulatory System of the Fetus 60

VII. Amniotic Fluid 62

VIII. Twinning 62

IX. Clinical Considerations 64

Study Questions for Chapter 6 67

Answers and Explanations 69

## 7. NERVOUS SYSTEM

70

I. Overview 70

II. Development of the Neural Tube 70

III. Neural Crest Cells 72

IV. Placodes 74

V. Vesicle Development of the Neural Tube 74

VI. Histogenesis of the Neural Tube 75

VII. Layers of the Early Neural Tube 77

VIII. Development of the Spinal Cord 77

IX. Development of the Myelencephalon 78

X. Development of the Metencephalon 79

XI. Development of the Mesencephalon 80

- XII. Development of the Diencephalon, Optic Structures, and Hypophysis 81
  - XIII. Development of the Telencephalon 82
  - XIV. Development of the Sympathetic Nervous System 84
  - XV. Development of the Parasympathetic Nervous System 84
  - XVI. Development of the Cranial Nerves 84
  - XVII. Development of the Choroid Plexus 85
  - XVIII. Congenital Malformations of the Central Nervous System 86
- [Study Questions for Chapter 7](#) 93
- [Answers and Explanations](#) 96

## 8. EAR 98

- I. Overview 98
- II. The Internal Ear 98
- III. The Membranous and Bony Labyrinths 98
- IV. Middle Ear 100
- V. External Ear 100
- VI. Congenital Malformations of the Ear 101

[Study Questions for Chapter 8](#) 104

[Answers and Explanations](#) 105

## 9. EYE 106

- I. Development of the Optic Vesicle 106
- II. Development of Other Eye Structures 109
- III. Congenital Malformations of the Eye 110

[Study Questions for Chapter 9](#) 113

[Answers and Explanations](#) 114

## 10. DIGESTIVE SYSTEM 115

- I. Overview 115
- II. Derivatives of the Foregut 115
- III. Derivatives of the Midgut 123
- IV. Derivatives of the Hindgut 127
- V. Anal Canal 130
- VI. Mesenteries 130

[Study Questions for Chapter 10](#) 131

[Answers and Explanations](#) 133

## 11. RESPIRATORY SYSTEM 134

- I. Upper Respiratory System 134
- II. Lower Respiratory System 134

[Study Questions for Chapter 11](#) 142

[Answers and Explanations](#) 144

## 12. HEAD AND NECK 145

- I. Pharyngeal Apparatus 145
- II. Development of the Thyroid Gland 145
- III. Development of the Tongue 147
- IV. Development of the Face 148
- V. Development of the Palate 149
- VI. Development of the Mouth 150
- VII. Development of the Nasal Cavities 150
- VIII. Clinical Considerations 151

Study Questions for Chapter 12 154

Answers and Explanations 155

## 13. URINARY SYSTEM 156

- I. Overview 156
- II. Development of the Metanephros 156
- III. Relative Ascent of the Kidneys 157
- IV. Blood Supply of the Kidneys 158
- V. Development of the Urinary Bladder 159
- VI. Development of the Female Urethra 159
- VII. Development of the Male Urethra 160
- VIII. Clinical Considerations 161
- IX. Development of the Suprarenal Gland 165

Study Questions for Chapter 13 169

Answers and Explanations 170

## 14. FEMALE REPRODUCTIVE SYSTEM 171

- I. The Indifferent Embryo 171
- II. Development of the Gonads 171
- III. Development of the Genital Ducts 173
- IV. Development of the Primordia of External Genitalia 175
- V. Tanner Stages of Female Sexual Development 176
- VI. Clinical Considerations 176

Study Questions for Chapter 14 180

Answers and Explanations 181

## 15. MALE REPRODUCTIVE SYSTEM 182

- I. The Indifferent Embryo 182
- II. Development of the Gonads 182
- III. Development of the Genital Ducts 184
- IV. Development of the Primordia of External Genitalia 186
- V. Tanner Stages of Male Sexual Development 186
- VI. Clinical Considerations 186
- VII. Summary 191

Study Questions for Chapter 15 192

Answers and Explanations 193

- 
- 16. INTEGUMENTARY SYSTEM** 194
- I. Skin 194
  - II. Hair and Nails 198
  - III. Mammary, Sweat, and Sebaceous Glands 201
  - IV. Teeth 203
- Study Questions for Chapter 16 205  
Answers and Explanations 206
- 
- 17. SKELETAL SYSTEM** 207
- I. Skull 207
  - II. Vertebral Column 211
  - III. Ribs 216
  - IV. Sternum 216
  - V. Bones of the Limbs and Limb Girdles 216
  - VI. Osteogenesis 217
  - VII. General Skeletal Abnormalities 217
- Study Questions for Chapter 17 220  
Answers and Explanations 221
- 
- 18. MUSCULAR SYSTEM** 222
- I. Skeletal Muscle 222
  - II. Smooth Muscle 223
  - III. Cardiac Muscle 224
  - IV. Clinical Considerations 224
- Study Questions for Chapter 18 226  
Answers and Explanations 227
- 
- 19. UPPER LIMB** 228
- I. Overview of Development 228
  - II. Vasculature 228
  - III. Musculature 230
  - IV. Nerves: The Brachial Plexus 230
  - V. Rotation of the Upper Limb 231
  - VI. Skeletal 232
- Study Questions for Chapter 19 234  
Answers and Explanations 235
- 
- 20. LOWER LIMB** 236
- I. Overview of Development 236
  - II. Vasculature 236
  - III. Musculature 238
  - IV. Nerves: The Lumbosacral Plexus 238

V. Rotation of the Lower Limb 239

VI. Skeletal 240

**Study Questions for Chapter 20 242**

**Answers and Explanations 243**

## **21. BODY CAVITIES**

**244**

I. Formation of the Intraembryonic Coelom 244

II. Partitioning of the Intraembryonic Coelom 244

III. Positional Changes of the Diaphragm 245

IV. Clinical Considerations 245

**Study Questions for Chapter 21 247**

**Answers and Explanations 248**

## **22. PREGNANCY**

**249**

I. Endocrinology of Pregnancy 249

II. Pregnancy Dating 250

III. Pregnancy Milestones 250

IV. Prenatal Diagnostic Procedures 251

V. Fetal Distress During Labor (Intrapartum) 252

VI. The APGAR Score 252

VII. Puerperium 253

VIII. Lactation 253

IX. Small-for-Gestational Age (SGA) Infant 253

X. Collection and Storage of Umbilical Cord Blood (UCB) 254

**Study Questions for Chapter 22 255**

**Answers and Explanations 256**

## **23. TERATOLOGY**

**257**

I. Introduction 257

II. Infectious Agents 257

III. TORCH Infections 259

IV. Childhood Vaccinations 261

V. Category X Drugs (Absolute Contraindication in Pregnancy) 261

VI. Category D Drugs (Definite Evidence of Risk to Fetus) 262

VII. Chemical Agents 263

VIII. Recreational Drugs 263

IX. Ionizing Radiation 264

**Study Questions for Chapter 23 265**

**Answers and Explanations 266**

**Comprehensive Examination 267**

**Credits 284**

**Index 293**
