

CONTENTS

Chapter 1

PRINCIPLES AND METHODS2

- Joint Range of Motion 4
- Muscle Strength 16
- Functional Application of Assessment of Joint
 - Range of Motion and Manual Muscle Testing 30

Chapter 2

HEAD, NECK, AND TRUNK34

- Surface Anatomy: Head and Neck 34
- Assessment Process: The Face and Neck 35
- Range of Motion Assessment and Measurement 37
- Muscle Strength Assessment: Muscles of the Face 43
- Muscle Strength Assessment: Muscles of the Head and Neck 61
- Surface Anatomy: Trunk 68
- Range of Motion Assessment 69
- Range of Motion Assessment and Measurement 70
- Muscle Strength Assessment: Muscles of the Trunk 78
- Functional Application: Neck and Trunk 92

Chapter 3

SHOULDER COMPLEX98

- Surface Anatomy 98
- Assessment Process: The Shoulder Complex 99
- Range of Motion Assessment and Measurement 101
- Muscle Strength Assessment 124
- Functional Application: Shoulder Complex 157

Chapter 4

ELBOW AND FOREARM166

- Surface Anatomy 166
- Assessment Process: The Elbow and Forearm 167
- Range of Motion Assessment and Measurement 169
- Muscle Strength Assessment 178
- Functional Application: Elbow and Forearm 191

Chapter 5

WRIST AND HAND196

- Surface Anatomy 196
- Assessment Process: The Wrist and Hand 197
- Range of Motion Assessment and Measurement 199
- Muscle Strength Assessment 222
- Finger and Thumb Muscles 239
- Functional Application: Wrist and Hand 255

Chapter 6

HIP266

- Surface Anatomy 266
- Assessment Process: The Hip 267
- Range of Motion Assessment and Measurement 269
- Muscle Strength Assessment 284
- Functional Application: Hip 306

Chapter 7

KNEE314

- Surface Anatomy 314
- Assessment Process: The Knee 315

Range of Motion Assessment
and Measurement 317
Muscle Strength Assessment 324
Functional Application: Knee 331

Chapter 8

ANKLE AND FOOT336
Surface Anatomy 336
Assessment Process: The Ankle and Foot 337
Range of Motion Assessment
and Measurement 339
Muscle Strength Assessment 352
Functional Application: Foot and Ankle 374

Chapter 9

**RELATING TREATMENT
TO ASSESSMENT**378
Similar Assessment and
Treatment Methods 379

Key Steps When Applying Methods 382
Examples of Similar Assessment and
Treatment Methods 383
Knee Extension: AROM Assessment and
Treatment Using Active Exercise 384
Hip Flexion: PROM Assessment and
Treatment Using Relaxed Passive
Movement 385
Long Finger Extensors: Muscle Length
Assessment and Treatment Using
Prolonged Passive Stretch 386
Anterior Fibers Deltoid: Muscle
Strength Assessment and Treatment
Using Resisted Exercise 387

Appendix A: OB “Myrin” Goniometry 388
Appendix B: Sample Numerical Recording Form:
Range of Motion Measurement 401
Appendix C: Sample Recording Form: Manual Muscle
Strength Assessment 405
Appendix D: Gait 411

Index 415
