<b>Authors</b>	<b>VIII</b>	<b>2</b>	<b>Minimally Invasive Surgical Procedures in the Upper Respiratory Tract</b>		
<b>Abbreviations</b>	<b>VIII</b>	2.1	Nasal Cavity and Paranasal Sinuses	19	
<b>Preface</b>	<b>1</b>	2.1.1	Conchal Necrosis	19	
<b>1</b>	<b>Methodological Basics of Minimally Invasive Surgery</b>		Minimally Invasive Therapeutic Procedures	19	
1.1	Sedation and General Anesthesia for Minimally Invasive Procedures		Discussion and Comparison with Conventional Surgery	20	
1.1.1	Sedation in the Standing Horse	2	2.1.2	Conchal Cysts (Mucous Degeneration of the Concha)	21
	Patient Preparation	2		Minimally Invasive Therapeutic Procedures	21
	Local Anesthesia	2		Discussion and Comparison with Conventional Surgery	23
	$\alpha_2$ -Agonists (Xylazine, Detomidine, Romifidine)	2	2.1.3	Choanal Atresia	23
	Phenothiazines (Acepromazine)	3		Minimally Invasive Therapeutic Procedure	24
	Opioids (Levomethadone, Butorphanol)	3	2.1.4	Progressive Ethmoidal Hematoma	26
	Examples of Drug Combinations	3		Minimally Invasive Surgical Procedures	26
	Sedation of the Adult Horse: Methods	4		Discussion and Comparison with Conventional Surgery	28
	Sedation of Foals: Methods	4	2.1.5	Masses in the Nasal Cavity and the Paranasal Sinuses	30
1.1.2	Special Features of General Anesthesia	5		Minimally Invasive Surgical Procedures	31
	Patient Preparation	5		Discussion and Comparison with Conventional Surgery	32
	Abdominal Surgery in the Trendelenburg Position	5	2.1.6	Sinusitis and Empyema of the Paranasal Sinuses	33
	Distension of the Abdomen with Gas / CO <sub>2</sub>	6		Minimally Invasive Therapeutic Procedures	33
	Thoracic Surgery	6		Discussion and Comparison with Conventional Surgery	35
	Special Requirements in Foals	7	2.2	Guttural Pouches	36
1.1.3	Risk Management in Complications	8	2.2.1	Guttural Pouch Abscess and Empyema	36
	Complications during Interventions in the Standing Horse	8		Minimally Invasive Therapeutic Procedures	36
	Complications during General Anesthesia	8		Discussion and Comparison with Conventional Surgery	38
1.2	Flexible Endoscopy	11	2.2.2	Guttural Pouch Tympany	39
1.2.1	Endoscopic Procedure	11		Minimally Invasive Therapeutic Procedures	39
1.2.2	Basics of High-Frequency Surgery	12		Discussion and Comparison with Conventional Surgery	42
1.2.3	Laser Surgery	12	2.2.3	Guttural Pouch Mycosis	43
1.2.4	Injection Therapy	13		Minimally Invasive Therapeutic Procedures	44
1.3	Rigid Endoscopy	15		Discussion and Comparison with Conventional Surgery	45
1.3.1	Laparoscope / Thoracoscope	15	2.3	Oropharynx and Nasopharynx	47
1.3.2	Trocar and Mandrel	15	2.3.1	Pharyngeal Foreign Bodies	47
1.3.3	Camera	16		Minimally Invasive Therapeutic Procedures	47
1.3.4	Light Source	16			
1.3.5	CO <sub>2</sub> Insufflation Device	16			
1.3.6	Documentation of Findings and Storage	16			
1.3.7	Laparoscopic Instruments	16			
1.3.8	High-Frequency Surgery	17			
1.3.9	Laser Surgery	17
