## UNIT I REPRODUCTIVE AND DEVELOPMENTAL PROCESSES

---

### Chapter 1

#### **Biologic Basis for Reproduction, 1**

##### **Genomics, 1**

##### **Chromosomes and Genes, 2**

Chromosomes, 2

Genes, 3

DNA Structure and Function, 4

##### **Cell Division, 5**

Mitosis, 5

Meiosis, 6

##### **Gametogenesis, 7**

Oogenesis, 9

Spermatogenesis, 9

Abnormal Gamete Development, 10

##### **Developmental Genetics, 12**

Mechanisms of Morphogenesis, 14

##### **Genetic and Chromosomal Disorders, 16**

Alterations in Chromosome Number, 16

Alterations in Chromosome Structure, 17

Gene Disorders, 18

##### **Modes of Inheritance, 19**

Autosomal Inheritance, 20

Sex-Linked Inheritance, 21

Multifactorial Inheritance, 22

Nontraditional Modes of Inheritance, 23

##### **Embryonic and Fetal Development of the**

##### **Reproductive System, 23**

Development of the Gonads, 24

Development of the Genital Ducts, 27

Development of the External Genitalia, 28

##### **Clinical Implications, 28**

Common Anomalies of the Genital Tract, 28

Prenatal Genetic Screening and Diagnosis, 31

Newborn and Other Screening, 31

Genetic Disorders and Pregnancy, 31

##### **Summary, 32**

### Chapter 2

#### **Physiologic Basis for Reproduction, 35**

##### **Hypothalamic-Pituitary-Ovarian Axis, 35**

Hormones, 35

Hypothalamic and Pituitary Glands, 35

Hormone Activators, Receptors, and Messenger Systems, 37

Hormone Storage, 39

Reproductive Hormones, 40

Feedback Systems, 48

##### **Reproductive Processes in the Female, 50**

Oogenesis, 50

Puberty, 50

Ovarian Cycle, 53

Menstruation, 58

Endometrial Cycle, 59

Gestational Follicular Development, 61

Climacteric, 61

##### **Reproductive Processes in the Male, 64**

Endocrinology, 64

Puberty, 65

Sperm Production, 66

Climacteric, 66

##### **Summary, 67**

### Chapter 3

#### **Prenatal Period and Placental Physiology, 70**

##### **Overview of Pregnancy, 70**

First Trimester, 70

Second Trimester, 71

Third Trimester, 72

##### **Conception, 72**

Ovulation, 72

Corpus Luteum, 74

Sperm Transport, 75

Fertilization, 76

Cleavage and Zygote Transport, 77

##### **Embryonic and Fetal Development, 79**

Overview of Embryonic Development, 79

Overview of Fetal Development, 86

Intrauterine Environment, 87

##### **The Placenta and Placental Physiology, 87**

Placental Development, 87

Placental Structure, 95

Placental Circulation, 95

Placental Function, 98

##### **Umbilical Cord, 105**

##### **Amnion and Chorion, 106**

##### **Amniotic Fluid, 107**

Amniotic Fluid Volume and Turnover, 107
