Foreword
Acknowledgments
Preface

CHAPTER 1 Capture and handling
Capture
Handling

CHAPTER 2 Clinical examination
General considerations
Clinical history
Physical examination
Physiological data collection
Cage and environment

CHAPTER 3 Clinical and diagnostic procedures
General principles
Biomedical sampling
Blood sampling
Hematology analyses
Biochemistry
Aspirates
Swabs
Crop and air sac flushing
Ectoparasites
Skin scrapping and feathers
Biopsies
Cytology
Radiography
Image intensified fluoroscopy
Ultrasonography
Endoscopy
TOBEC
Advanced anatomical imaging

CHAPTER 4 Anesthesia and soft tissue surgery
Anatomical and physiological considerations
Volatile anesthesia
Injectable anesthesia
Anesthesia monitoring
Local anesthesia and analgesia
Hypothermia
Anesthetic emergencies
Soft tissue surgery

CHAPTER 5 Medical procedures
Medicament administration
Enema
Fluid therapy
Tube feeding and nutritional support
Metabolic drug scaling
Claw/talon and beak trimming
Feather repair
Wing clipping and pinioning
Bandages and dressings
Protective foot casting
External splinting
Elizabethan collar

CHAPTER 6 Trauma-related medical conditions
Neck dislocation and fracture
Eye and eyelid injuries
Keel injuries
Wing tip injuries
Bumblefoot
Fractures
Wounds
CHAPTER 7 Management-related diseases

Metabolic bone disease
Twisting and bending deformities of the long bones in growing birds
Slipped tendon, angel wing and rolled toes
Inanition
Behavioral osteodystrophy
Capture paresia
Toxicology
Disorders of the digestive system
Endocrine disorders

CHAPTER 8 Infectious diseases

Conservation biology of parasites
Arthropods
Protozoa
Helminths
Helminths
Hemoparasites
Bacterial diseases
Viral diseases
Fungal diseases

CHAPTER 9 Post-mortem examination with anatomical notes

Appendices

Sex-linked bodyweights reference table for selected avian species
Hematology reference values
Blood chemistry reference values
Incubation periods for selected avian species
Selected avian literature
Legislation and codes of practice relevant to avian medicine
Organizations and electronic resources relating to avian medicine
Pharmaceutics commonly used in avian medicine
